Re: Amendment #1
Soil Re-use Management Plan
Portion of Assessor's Parcel 18-22-0
Cross Road, Granville, MA

Dear Mr. Gervais:

Parker Environmental Corporation (PEC) has prepared this Amendment to the "Soil Re-Use Management Plan" (SRMP), dated November 10, 2015. This letter constitutes Amendment #1 of the SRMP and addresses only the established acceptance criteria for pH in the original SRMP.

Based on recent evaluation of material proposed for re-use at the facility PEC has evaluated the listed acceptance criteria of 5-9 Standard Units (SU) for pH in soil. At this time it is the opinion of PEC that the acceptance criteria for pH be modified to the following:

- Un-amended pH acceptance criteria – 3-11 SU
- Site specific consideration given pre-delivery or post-delivery amendment for pH outside this range

If you have any questions regarding this Amendment, please do not hesitate to contact us

Sincerely
Parker Environmental Corporation

Scott Parker
President
